

PROJECT ENGINEER

This is an exciting opportunity to be part of our growing organisation working within our busy engineering projects department

Axiom Process Ltd
Hendy Industrial Estate
Hendy, Swansea, UK
SA4 0XP

Axiom Process is a manufacturer of process plant specialising in the design and manufacture of membrane filtration systems, process components and tube and pipe fittings. Each membrane system tends to be unique and has to be engineered and customised for individual applications. The company which currently employs 34 personnel, operates from a 10,000 ft² factory based in Hendy, near Swansea and provides engineering expertise primarily to the pharmaceutical, food, beverage and environmental industries.

Knowledge and experience

Qualified to degree level in an engineering or scientific discipline with minimum 3-4 years experience of working in equipment manufacturing and being involved in the design or specification of process equipment. In particular some experience with Thermo or Fluid dynamics would be an advantage. Must have the ability to read and understand drawings. Competency with compilation of documentation is critical, as are excellent administrative and organisational skills. Must be fully conversant with Microsoft Office Suite. Extensive use of spreadsheets is key to this role.

Duties

- Conducting pilot plant trials at Swansea and on the customers site
- Preparation of pilot plant trial reports
- Preparation of cost estimates for sales quotations, calculations involving fluid or thermo dynamics
- Design of process flow diagrams, defining instrumentation and control requirements
- Sourcing and procuring equipment and materials for plant construction
- Supervision of construction of plant in workshops and liaison with workshop personnel
- Carrying out risk assessments and other safety related studies
- Liaison with customers to discuss projects in progress
- Overall, carry a project through from inception to design, manufacture, installation & commissioning on customer's product, often on the customers site
- Driving Licence Essential
